

Your career is on track.

# Cloud Solution Architect (m/f/d)

Locations St. Marienkirchen, Vienna

We detect and track trains in real-time and know exactly what is happening along the rail. For this, we use state-of-the-art technology and unique solutions for the global railway industry. Are you ready to shape the future with us?

## Your main roles and responsibilities

- Be part of an agile development team and drive developments through your own initiative
- Design scalable and robust architectures and help to implement them
- Support the Product Owner on choosing the right cloud technologies and environments for our products
- Be a coach for developers and support them in questions and concrete implementations
- Bring in your expertise in coding and contribute to optimization through code reviews

## You are just right for this role if

- you are fascinated by software development and you already have several years of experience in this field
- Go or Java are part of your applied repertoire
- you like coding as much as cloud technologies and DevOps
- JavaScript, TypeScript and frameworks like Angular are not new to you
- you have team spirit and enjoy learning new technologies

## We offer you

- a secure job in an international environment
- an agile and open corporate culture
- the opportunities for personal development and further training
- attractive social benefits such as free lunch, fruit and coffee, free childcare, numerous sports offer, company events and much more
- a gross annual salary from EUR 35.000,00 working 38.5 hours per week - the actual salary is based on the current market qualifications and experience
